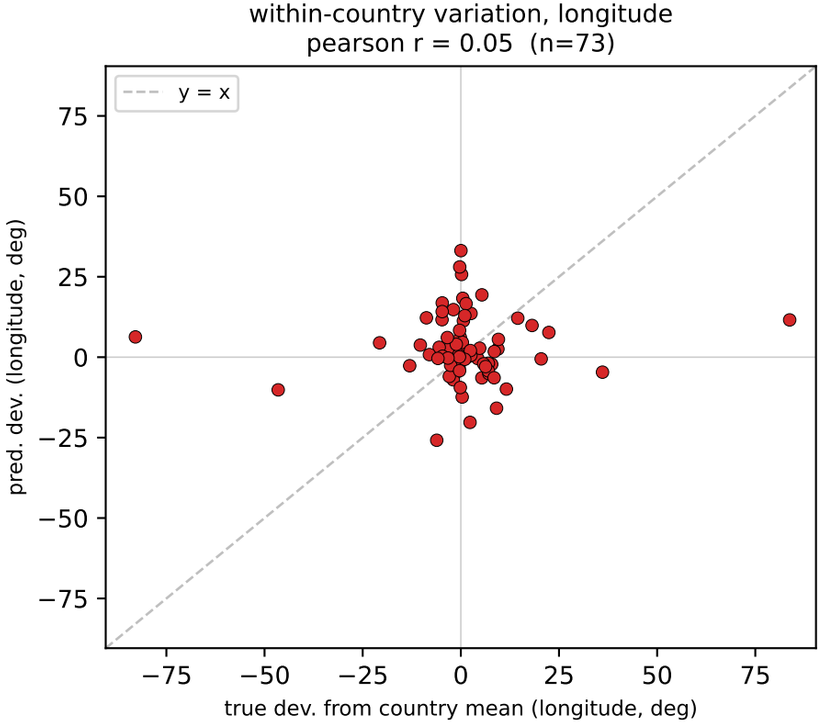
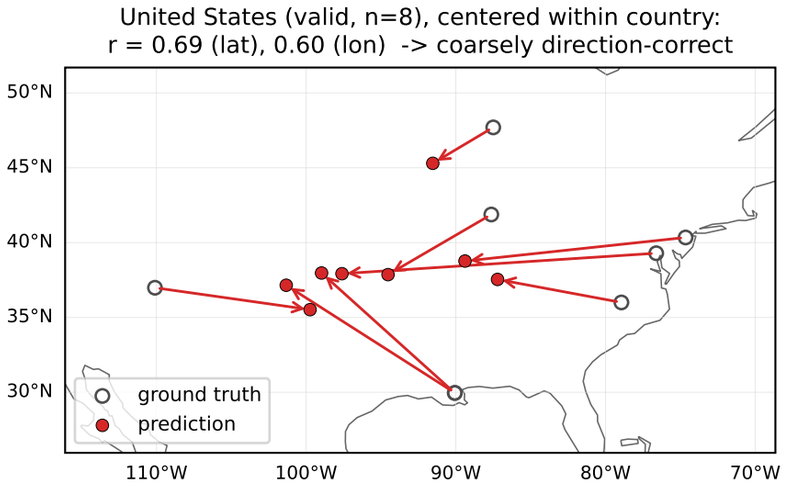
within-country variation, latitude
pearson r = 0.20 (n=73)
y = x
pred. dev. (latitude, deg)
true dev. from country mean (latitude, deg)



within-country variation, longitude
pearson r = 0.05 (n=73)
y = x
pred. dev. (longitude, deg)
true dev. from country mean (longitude, deg)



United States (valid, n=8), centered within country:
r = 0.69 (lat), 0.60 (lon) -> coarsely direction-correct
